**Edges**

**Il profilo ripiano svolge una funzione di supporto alle mensole ed allo stesso tempo permette di valorizzarne l'esteticità. Disponibile in varie finiture, possono essere posizionati direttamente sul bordo oppure inseriti in ripiani fresati.**

The shelf profile acts as a support for the shelves and, at the same time, allows their aesthetics to be enhanced. Available in various finishes, they can be placed directly on the shelf edge or inserted in milled shelves.
